WHAT IS PROJECT GRADUATION?

Project Graduation is a nationally recognized program started by MADD to provide a celebration for the graduates after their ceremony in a safe, drug- and alcohol-free environment.

Students report to SHS at 9:30 PM to board buses heading to the Sonny Werblin Center at Rutgers University for an evening of fun supervised by faculty and parent chaperones. Students return back to school the next morning at 5 AM.

The message of Project Graduation's year-long efforts is to let students know that we are offering them an opportunity to have a good time that does not include alcohol or drugs. This graduation day event is a fun and safe way to celebrate with their fellow graduates.
